REJECTION OF OFFER

Dear [REDACTED],

We have received your correspondence and we thought, WOW, this is amazing. Someone is going to look after the 2.4 billion people globally who now have their MOST IMPORTANT data (medical and financial) stolen/ "leaked." I would love to think that your law firm are really nice people who do care. However, my enthusiasm quickly diminished, because like in Mr. Gustafson's bio being a normal guy who cares about people, I had to remind myself that the American Bar and the Freemasons (of whom 90% are totally ignorant to that of which they are a part) **are the gatekeepers to justice, meaning the subversion of our legal system.**

This information is now in the hands undoubtedly of the intelligence agencies, and fusion centers which make it available to anyone with money. You may want to look into fusion centers in case you have children, since their freedoms are currently being diminished and will not exist in the future. The massive data collection on innocent, normal people, pre-criming you for beliefs, interests and all other freedoms that are made out to be by a tyrannical government. **This new law enforcement completely contradicts the value set forth on your website about America being the greatest and freest country in the world.**

I want to tell you that I am aware of incorporation, corporate liability shields, the laws of agency, the statutory civil courts, the maritime contract courts, and also corporations which are the perfect tool to undermine our legal system and what is lawful and just. Criminal action would be prudent and just when the UnitedHealthcare corporation/ monopoly whose board of directors all have huge financial interests in a new bio-metric security system. Given the fact that all corporations are a contract with the government (a political body that is formed in order to maintain perpetuity) to **shield agents from being liable for actions and acts as a real person when necessary. It also allows them to cross state lines and national borders when it needs to do so and doing things in commerce and government that are restricted by regulations and separation of powers.**

Which brings me to my other point about corporations, I'm also aware a corporation can only deal with a corporation, meaning these contracts that normal people have with corporations lock every human being on the planet and specifically in this country, into a Maritime contract jurisdiction using a strawman (ens legis), corporate transmitting utilities; all done in a secret manner or as in legal terms which you guys like to use fancy words: a clandestine act, which is fraudulent.

My curiosity would be since I'm a living woman who no longer functions in a commercial capacity or in the public in general, who has severed my contracts, that maybe it would prudent for you sir, Mr.

Goodwin, to inform me of how you will represent me, as a living woman in a criminal court, due to the fact that these inferior courts and tribunals no longer have jurisdiction over me.

A corporation can be tried AS A PERSON in a criminal court with criminal penalties. **The refusal to do this is the SUBVERSION I SPEAK ABOUT. The deals made in a contract court allow guilty people to never have to admit their guilt.** The only place this litigation can now go is into a contract court where corporations negotiate with each other and **settle things with money, instead of criminal charges.** This is what people should get when they willfully and intentionally do harm with little to no regard for the ultimate level of culpability and responsibility.

Furthermore, **The 82nd Congress congressional record stated that the American Bar was a Communist organization** and due to the fact that first and foremost, **I'm an American, it is my duty that I do not enter relations with groups that are looking to subvert and destroy our way of life.**

I think at this point, it would be important to say that social mandate for corporations known as Diversity, Equity and Inclusion is at its core a **Bolshevik tool.** I'm glad to see that your staff has an even representation of minorities, but this corporate social governance and DEI are just another tool of the communists, used by supporters.

Good luck with negotiating everyone's real remedy away, so there can never be justice.

Felix Frankfurter and Louis Brandeis, the communists, to name only a couple, would be so proud of what you're about to do, **helping another monopoly corporation get away with MURDER and the effects of this data breach are going to be so massive in pushing more helpless people into digital biometric SLAVERY, so I hope you all sleep well at night, because you are likely communist traitors, knowingly or unknowingly.**

Of course, if y'all decide you want to be heroes and step up and be honest about these frauds, like unlawful conversion of a living man into a corporate utility, then give me a call!

Without Prejudice - Without Recourse - all unalienable rights guaranteed Autographed by Perry Louis Fields a woman, a **Living Soul** on the 27th day of December, 2024 in the 46th year since Born alive.
