FAIR NOTICE AND WARNING OF COMMERCIAL GRACE

NOTICE OF NON-JUDICIAL PROCEEDING

THIS IS A U.S. S.E.C. TRACER FLAG, NOT A POINT OF LAW

A SECURITY (15 USC)

COMMERCIAL AFFIDAVIT

U.S. S.E.C. TRACER FLAG

NOT A POINT OF LAW

READ attached APPENDIX A)
STATE OF TENNESSEE) ss:
COUNTY OF SEQUATCHIE)

TO: William Wayne Phillips (aka Sheriff “Bill” Phillips)

Sequatchie County Justice Center

351 Fredonia Road

Dunlap, TN 37327

Certified Mail Number: 7022 0410 0001 2193 4820

CIVIL REMEDIES; PRESERVATION: The omission to specify or affirm in this document any liability to damages, penalty, forfeiture, or other remedy imposed by law and allowed to be recovered or enforced in any civil action or proceeding, for any act or omission declared punishable herein, does not affect any right to recover or enforce the same.

I, Benjamin Dylan Fowler and I, Perry Louis Fields, the Undersignees, *[by any special conditions of standing, i.e. a trustee of a trust] do solemnly swear, declare and depose:**

1. THAT we are competent to state to the matters set forth herein.
2. THAT we have personal knowledge of the facts stated herein.
3. THAT all the facts stated herein are true, correct, and certain, admissible as evidence, and if called upon as a witness, we will testify to their veracity.
4. THAT the eternal, unchanged principles of Commercial Law are:

- a) A workman is worth of his hire. (thou shalt not steal)
- b) All equal under the law. (no one is above the law)
- c) In commerce, truth is sovereign. (thou shalt not bear false witness)
- d) Truth is expressed in the form of an affidavit.
- e) An un rebutted affidavit stands as truth in Commerce.
- f) An un rebutted affidavit becomes the judgment in Commerce.
- g) All matters must be expressed to be resolved.
- h) He who leaves the battlefield first loses by default.
- i) Sacrifice is the measure of credibility (no willingness to sacrifice= no liability, responsibility, authority or measure of conviction)
- j) A lien or claim can be satisfied only through an affidavit by point-for-point rebuttal, resolution by jury or performance.

5. THAT the foundation of Commercial Law, being based on certain eternally just, valid and moral precepts, has remained unchanged for at least six (6) millennia. Said Commercial Law forms the underpinnings of Western Civilization if not all Nations, Law and Commerce in the world, is NON-JUDICIAL, as is prior and superior to, the basis of, and cannot be set aside or overruled by, the laws and statutes of any governments, legislatures, quasi-governmental agencies, or courts. It is therefore an inherent obligation on all Authorities, Officials, Governments, Legislatures, Governmental or Quasi-governmental Agencies, Courts, Judges, Attorneys, and all aspects and Agents of all Law Enforcement Agencies to uphold said Commercial Law without which said entities are violating the just basis of their alleged authority and serving to disintegrate the society they allegedly exist to protect.

6. THAT Commercial process (including this Affidavit and the required responses to it) ARE NON-JUDICIAL and pre-judicial because:

- a) No judge, court, government or any agencies thereof, or any other third parties whatsoever, can abrogate anyone's affidavit of truth; and
- b) Only a party affected by an affidavit can speak and act for himself and is solely responsible for responding with his own affidavit of truth, which no one else can do for him.

7. THAT the lawful seizure, collection, and transfer or ownership of money or property must be effected by a valid Commercial Lien which must contain certain elements in order to be Commercially valid, to wit:

- a) The lien instrument must obviously, patently, and evidently be a LIEN by being clearly and explicitly titled "LIEN," "CLAIM OF LIEN," or "DECLARATION OF LIEN," and mandatory, by its exhaustive Commercial content (full disclosure) as follows in b), c) and d);
- b) The lien instrument MUST CONTAIN a notarized hand-signed affidavit, for which the issuer is commercial liable, containing a plain statement of fact disclosing how the obligation of the lien was created, attesting that the commercial condition is true, correct and certain;
- c) The lien instrument MUST CONTAIN a ledger or bookkeeping statements connecting purchases, services rendered, and/or injuries sustained, with claim of obligation such that each purchase, service and/or injury is presented in a one-to-one correspondence with its partial

claim of obligation. The partial obligations are then totaled to obtain the total obligation. This is called a “True Bill in Commerce.”

d) The lien instrument MUST CONTAIN a statement, either specific or general, of the property being seized from the lien debtor to satisfy, or to guarantee satisfaction of, the obligation of the lien.

e) A NOTICE OF LIEN to be valid MUST CONTAIN a clear statement as to where the lien is filed, where it can be found and how a copy can be obtained.

8. THAT No Exclusions exist contrary to my rights as one of *We The People* as we are not the creation or chattel or property of any person or any government agency whatsoever. We are not under any obligation whatsoever to any governmental agency, state or federal, or any of their self-passed laws, statutes, regulations or policies.

9. THAT, I, Benjamin Dylan Fowler, and I, Perry Louis Fields, are the sole and absolute owners of ourself, our bodies and our estate, and possess unconditional, allodial, sovereign title thereto, and that we abjure, renounce, forsake, and disavow utterly and absolutely now and forever all presumptions of power, authority or right by any government agency, its Principals, over the rights, life, liberty, freedom or property of these Affiants from whatever source presumed or derived.

10. The Oath of Office which is a covenant contract to The People requiring specific performance of the office you hold. Under inspection of your oath registered at the Sequatchie County Clerk, it was viewed as unsigned (refer to DOCUMENT, APPENDIX B). The unsigned oath does not relieve or excuse you from obligation as defined in Article 10 Section 1 of The Tennessee Constitution. When combined with the failures to investigate, report and observe Constitutional guarantees pertaining to individual and property rights. In American society, a man in this situation has no other option but to look to Article 1, Section 2, Doctrine of Non-Resistance Condemned, *“That government being instituted for the common benefit, the doctrine of non-resistance against arbitrary power and oppression is absurd, slavish, and destructive of the good and happiness of mankind.”* Article 7, Section 1, that states, *“Officers shall be removed from office for maleficence, or neglect or duty, in a manner prescribed by law.”*

11. Your obligation is well established through duty to The People. Your obligation to us was reinforced by a verbal commitment to meet, a physical handshake with your word to us, and several sworn affidavits served to you with intent to investigate; some of them were publicly declared and recorded, showing great public health concern, which you failed to consider formally and repeated refusal to meet in person to know our character and clarify statements made. This made resolution impossible for remedy of crimes for which, my wife and I, are victims.

12. I, Benjamin Dylan Fowler, and I, Perry Louis Fields, have supplied William Wayne Phillips the following documents (refer to APPENDIX C for documents):

a) Notice of Violation of Right to Privacy, Right to Anonymity, Loss of Security of Property

b) Notice to Sheriff / 5G & Hidden Technologies in Sequatchie County, Tennessee

c) Complaint of Trespassing & Assault

d) Notice of Requirement for Lawful Conduct by Sheriffs / Notice of Apparent Criminal Misconduct

13. THAT in order for a crime to exist, four elements must exist; there must be defined crime, there must be a victim, that the victims must have been damaged, and the intent must be established on the part of the accused. Without proof of all four elements, no crime can said to have been committed. In this Affidavit, crimes are defined, the Affiants are the victim, this Affidavit verifies the damaged, and the intent is

established at the end of the thirty (30) day grace period, if the respondent fails to rebut (respond to) the wrongs he has been a party to as noted herein.

14. (a) In mid September of 2024, my wife (Perry Louis Fields), and I brought a publicly recorded statement that consisted of a criminal complaint and rights violated by an unknown agency to a detective, under your command, with the intent of investigation. Weeks went by without any acknowledgment. Refer to DOCUMENT (a), under APPENDIX C. The crime against us was unlawful search of property. TN Constitution Article 1 Section 7 related US Constitution (below is a list of failures of duty in pursuing this crime):

- Failure to formally respond to a criminal complaint
- Failure to investigate an unlawful surveillance/search
- Failure to uphold right of secure articles, effects and person

b) In mid October, 2024, my wife and I brought to you a criminal complaint of public matter that required utmost care and respect. Refer to DOCUMENT (b), under APPENDIX C, which was hand delivered to your secretary, Desiree. Under circumstances unknown to us we could not gain an audience, (below is a list of failures of duty in pursuing this crime):

- Failure to investigate a crime of public safety when served with a criminal complaint
- Public endangerment (failure to inform the public of danger)
- Dereliction of Constitutional duty

c) Next, on November 5th, 2024, an assault occurred on my wife at our location by a utility contractor. Sequatchie county sheriff's department was called and the deputy never showed up, but called later. He was informed that we wished to pursue charges. He then referred us to the court clerk of Sequatchie county and when we arrived at her office, no complaint or statement had been filed. Upon receiving ill advice from both the court clerk and the deputy regarding the subject of easements and contracts, and our property rights were in suspension, which was implied due to the later. Both the clerk and the deputy had to be corrected of their position orally; both were misguiding and misleading in their interpretations of the law and the incident. Your department's breach of obligation is as follows:

- Failure to action
- Failure to file
- Failure to provide path to remedy (prevertin the course of justice)

d) Again, feeling indifference and due to lack of action from the sheriff's department, our action was mailing a statement. Refer to DOCUMENT (c) under APPENDIX C, Certified Mail: 7022041000121934660. to the deputy with the intent to pursue charges and to give our formal statement. We felt the necessity to send a notice of liability concerning our relationship and our expectations of our rights concerning the authority figure at the Sequatchie County Sheriff's Department, that person being you, William Wayne Phillips. Refer to DOCUMENT (d) under APPENDIX C, Certified Mail: 70220410000121934653. The Notice of Requirement for Lawful Conduct by Sheriffs / Notice of Apparent Criminal Misconduct, was intended to preserve our rights and ease any more missed communications (or miscommunication).

e) Directly proceeding these events, the utility company began to badger us. The next incident involving the utility company and the sheriff's department was on January 2nd, 2025. We arrived after an outing, to be greeted by a female sheriff's deputy and a utility worker, who wished to gain access to the property. There was no rights to access without a judge's warrant and this female deputy made the correct

interpretation. Our rights were declared as we were involved in commercial administrative process and discussions. At this point, the utility worker was allowed on the premises to inspect the current meter to eliminate potential safety concerns.

f) On February 14th, 2025, the utility company arrived at our location unannounced again and aimed to gain access to the property to shut off our power. Our rights were declared again and due process of a judged signed court order was conveyed to the utility company as a requirement for right of entry. My wife, once again, phoned the sheriff's office as our only means of protection, other than self defense, she was not informed that two deputies were already on the scene, dispatch told her that they were on the way, yet as she walked outside again, the deputies were walking up quickly thereafter. Their cars were facing the opposite direction on the highway in which they should have come from (the center of the county), with the county line just being right past us by a mere quarter mile. Their lack of questioning to understand the situation showed pre-meditative planning. The deputies should have showed up with EPB to keep the peace. Their failure to assert their authority put both parties in danger. Even when informed of due process, requirements of a warrant with a judge's signature, they did nothing to intervene in the trespass of the utility company and hindered my ability to deal with the utility company directly. When I demanded the warrant, they repeatedly informed me that the supervisor was on the way to which I responded, "*then why are you allowing them to cut the lines right now?*," as EPB hung over our property in a bucket truck from the neighboring property. By the time the supervisor arrived, the line had been cut and their job was done. The deputies immediately went to their supervisor to have a meeting which was appropriately 50 feet from us. The supervisor would not even acknowledge us and when we provoked him into an acknowledgment he shouted at us, "*that we should have taken the meter*" and, "*you're the ones that signed the contract.*" Again, another public servant was adjudicating and unlawfully interpreting a contract, this time from a squad car; a despicable and blatant profanity of words by an officer charged to defend due process and Constitutional guarantees. EPB and the three deputies collected together outside of ear's reach. When they were finished the two young deputies walked over and asked if we wanted our names to be on their statement, and of course we declined based on the feeling of our rights being trampled. The violations of our Constitutional protections are as follows:

Failure to perform when served a notice of requirement (refer to DOCUMENT (d), under APPENDIX C), which implicates you in deputies' actions:

- Failure to observe due process (TN Constitution Article 1 Section 7 Unlawful Search and Seizure).
- Racketeering (per Black's Law Definition: is an organized conspiracy to commit the crimes of extortion or coercion. From the standpoint of extortion it is the obtaining of money or property from another, without his consent, induced by wrongful use of force or fear. Extortion, per Black's Law Definition: the obtaining from another induced by wrongful use of actual or threatened force, violence, or fear or under color of official right. 18 USC section 871 et seq; s 1951. Black's Law 5th Edition: Collusion: a secret combination, conspiracy, or concert of action between two or more persons for fraudulent or deceitful purpose.)
- Conspiracy to commit deprivation of rights.

15. I attempted to see you in person on several occasions, including phone calls, and your secretary said you were busy every time. When I introduced myself to you at the Lone Oak Community Center, you gave me your word we would sit down and discuss. The next week I was met with ridicule and indifference on the phone. I was insistent that we meet in person, and you didn't believe it was necessary. Your statements about this document, refer to DOCUMENT (b) under APPENDIX C, started with "*I thought someone was playing a joke on me.*" The public concern for school children was passed on to "*bad parenting.*" The previous document, refer to DOCUMENT (a) under APPENDIX C, about the unmarked military helicopter surveillance was casually passed off by the state police doing their job.

When asked for receipts, meaning documentation of your position, you said, *“I’ll give you some if I feel it’s necessary.”* At the end of the conversation you said, *“I don’t mean to be rude, but I love my country.”*

DOCUMENTS (a-d), under APPENDIX C, were our attempts to act in good faith and due diligence and enter into a relationship with the sheriff’s department to lawfully uphold our rights and ensure crimes are not being committed to the public, (TN Constitution Article 1 Section 17 Courts To Be Opened) as was my formal request in documentation. The names of all deputies have been omitted, as you, the sheriff, is the authority and leadership of his department and many of these documents directly involved you, the sheriff.

Where is the clean hands?

Where is the good faith action?

Where is the truth, and all similar just and virtuous qualities and proceedings based on them that are supposed to be in commerce and the protections of The Constitution the united states of America, and The Tennessee Constitution?

16. As a consequence of willful violation of duty our rights were suspended without due process. All crimes are malfeasance of Process and Obligation of Oath itemized as follows:

Failure to formally respond to a criminal complaint, ref. 14 (a)	\$ 33,333.30
Failure to investigate an unlawful surveillance/search, ref.14 (a)	\$ 33,333.30
Failure to uphold and defend right of secure articles, effects and person, ref. 14 (a)	\$ 33,333.30
Failure to investigate a crime of public safety when served with a criminal complaint, ref. 14 (b)	\$ 33,333.30
Public endangerment (failure to inform the public), ref. 14 (b)	\$ 33,333.30
Dereliction of Constitutional duty, ref. 14 (b)	\$ 33,333.30
Failure to support the lawful right of action, ref. 14 (c)	\$ 33,333.30
Failure of filing requirement, ref. 14 (c)	\$ 33,333.30
Perverting the course of justice, ref. 14 (c)	\$ 33,333.30
Conspiracy to deprivation right (racketeering), ref. 14 (f)	\$ 33,333.30

Total: \$ 333,333

Three Hundred and Thirty-Three Thousand and Three Hundred and Thirty-Three Dollars and 00/100
of lawful money of the united states of America.

The monetary amount on this judgment is \$ 333,333 recompense for your failures, which will be donated to the **Sequatchie County Radiation Recovery Trust** (C/O 301 US 127, Lone Oak (Non-Domestic), Republic of Tennessee, Zip Exempt) for ongoing harms and education to the community.

The property at SNYDER LOOP will be encumbered for non performance and duty of obligation, for the period of 99 years regardless of our death, or a jury of 12 decides to alter, or payment is made.

Property Addresses: SYNDER LOOP (Phillips Property), Sequatchie County
Property ID: 056 01823 000, County # 77, Receipt #9065

Property ID: 056 01824 000, County # 77, Receipt #9066

Property ID: 056 01822 000, County #77, Receipt #9064

Property ID: 056 01801 000, County #77, Receipt #9062

Action will be taken to report to official statutory bond: RFL Insurance Company for William W. Phillips (Surety's Bond No: LSM1719005).

17. THAT failure to respond as herein required to these Affiants, within the herein a prescribed time of thirty (30) days will be deemed by these Affiants to invoke the doctrine of acquiescence and admission, to recover, in commerce, for failures, penalties and costs. We are prepared to remove any of these charges if rebutted by fact, but the results after the removals will be notarized and placed on public record.

18. THAT this Commercial Affidavit, Notice and Warning of Commercial Grace, is the ONE AND ONLY such Notice of Warning.

19. THAT all parties who act against these Affiants on their alleged basis must produce the Commercial Affidavits of TRUTH, sworn by the claimants to be "true, correct, and complete (certain)," which prove this origin and foundation of their claims.

20. NOTICE is hereby given, and demands are made, on All Claimants -[parties], [other Officials, Attorneys, Judges], and any other involved Parties that:

- a) ALL FUTURE PARTIES who proceed to act or assist in said actions, against these Affiants, without thorough, verifiable, point-by-point rebuttal of each and every point set forth in this Affidavit shall be immediately charged with criminal fraud, conspiracy of extortion, theft and fraud, and commercial liens shall be placed against all their real and personal properties.
- b) All court costs and legal fees relating to this instant case shall be paid by those who have drawn the undersigned Affiants into this instant matter.

21. THAT the Respondent's failure of duty to protect the peace of the Undersigned Affiants, and this Affidavit or response/rebuttal to said claims or charges, established the mutually voluntary, consensual, commercial, private contract by and between the Undersigned and Respondents.

22. THAT I, Benjamin Dylan Fowler, and I, Perry Louis Fields, the Undersigned Affiants, depose and certify that we have written the foregoing with intent and understanding of purpose, and believe the statements, allegations, demands and contents herein to be true, correct, and complete, commercially reasonable, and just, to the best of my knowledge and belief. Our word is our bond.

23. In a land of laws justice must prevail. For every harm their must be a remedy.

TRUTH IS THE HIGHEST RELIGION.

COMMERCIAL AFFIDAVIT

AFFIDAVIT OF NOTICE, DECLARATION AND DEMAND

FAIR NOTICE AND WARNING OF COMMERCIAL GRACE

NOTICE OF NON-JUDICIAL PROCEEDING

THIS IS A U.S. S.E.C. TRACER FLAG, NOT A POINT OF LAW

A SECURITY (15 USC)

COMMERCIAL AFFIDAVIT

U.S. S.E.C. TRACER FLAG

NOT A POINT OF LAW*

see attached instruction

*One definition of “A Security” is “any evidence of debt.”

APPENDIX A

The Lien Claimant does NOT rely on Title 15 as a basis for the “Commercial Lien.” ALL Commercial processed, by using or relying on notes or paper in Commerce (e.g. Federal Reserve Notes), must bear some sort of Federal tracking code, a County Recorder’s number or a serial number, which process must be accessible for inspection at the nearest relevant County Recorder’s Office or be widely advertised. When a Lien matures in one (1) month, thirty (30) days, by default of the Lien Debtor through the Lien Debtors failure to rebut the AFFIDAVIT OR OBLIGATION point-for-point categorically, it becomes an accounts receivable in the ordinary sense of a collectible debt upon which assignments, collateralization, and other commercial transactions can be based, hence becomes a Security subject to observation, tracking, and regulation by the United States Securities and Exchange Commission (hereinafter U.S. S.E.C.).

The notation “A Security—15 USC” is a flag in Commerce telling the U.S. S.E.C that a speculation account is being established to enforce a lien. The U.S. S.E.C. can then monitor the process. As long as the process is truthful, open and above-board (Full disclosure), the U.S. S.E.C has no jurisdiction over it, for even the U.S. S.E.C has no jurisdiction over the truth of testimony, depositions, affidavits, and affidavits of obligation (Commercial Liens), and an unrebutted affidavit stands as the truth in Commerce.

When an Affidavit is so flagged in Commerce, it becomes a Federal Document because it could become translated into a Security (for example) be being attached in support of a Commercial Lien), and not accepting and/or filing a Commercial Affidavit becomes a Federal offense.

APPENDIX B

Oath of Office for SHERIFF Of Sequatchie County

I, Bill Phillips, do solemnly affirm that I will perform with fidelity the duties of the office to which I have been elected and which I am about to assume. I do further solemnly affirm to support the Constitution of the State of Tennessee and the United States and to faithfully perform the duties of the office of Sheriff for Sequatchie County, Tennessee. I do further solemnly affirm that I have not promised or given, nor will I give any fee, gift, gratuity, or reward for this office or for aid in procuring this office; that I will not take any fee, gift, or bribe or gratuity for returning any person as a juror or for making false return of any process and that I will faithfully execute the office of Sheriff to the best of my knowledge and ability, agreeable to the law.

Certificate of Administration

I, Charlotte Cagle, being duly authorized to administer the above oath do say that I administered the above oath to Bill Phillips on the 23 day of August, 2021.

Charlotte Cagle

File 08/22/2022

APPENDIX C

DOCUMENT (a)

Notice of Violation of Right to Privacy, Right to Anonymity, Loss of Security of Property

Notice to Sequatchie County Sheriff's Department

On July 13th an unmarked Lakota UH -72A with an advanced camera flew over our property multiple passes, at an unknown extremely low altitude and flying for an extended amount of time in the area.

We used a flight tracking tool to monitor the helicopter when it was out of visual sight. It was in the area for hours. We have no less than 10 concerned neighbors giving us testimonials.

We called your sheriff's department to voice our concerns and to gain insight. We spoke to Deputy Kraft who informed us that he was uninformed of any government or police activity which would have explained the situation.

Deputy Kraft suggested to contact the FAA. Attached is the statement under oath to the FAA and their response was not to comment. Also presented is the flight tracker logs of this flight and a similar flight in November, and the home base of the helicopter is Nashville airport, not a military base.

We domicile in Lone Oak, which is an UNINCORPORATED township. It's our understanding that the federal government must be in contact with the county sheriff's department when conducting operations.

Deputy Kraft said that he was unaware of the reasons for this flight.

Article 1, Section 7 of the Tennessee Constitution states that the people shall be secure in their persons, houses, papers, and possessions from unreasonable search and seizure.

Article 1, Section 17 states that all courts shall be open; and every man, for an injury done him in his lands, goods, person or reputation, shall have remedy by due course of law, and right and justice administered without sale, denial, or delay.

Article 4 of the Constitution For the united states of America reads the same as Article 1, Section 7 of the Tennessee Constitution.

These are just a few examples of rights that have been compromised by such activities by agents acting in a governmental capacity participating in unconstitutional surveillance practices.

After receiving the letter back from the FAA, we looked at this flight again on our flight tracking tool and **it no longer exists**. We contacted Flighttrader.com to ask them if they had been contacted by any government agencies in regards to the apparently scrubbing of this vehicle with registration number #, and have received no communication.

Notice to agent[s] is notice to principal. Notice to principal is notice to agent[s]

We are requesting from the Sheriff of Sequatchie county that a full investigation be conducted to clarify the facts, to reveal the actors involved in usurping the rights of the Lone Oak community residents.

AFFIDAVIT OF TRUTH

On July 13th at around 11 am, an unmarked Lakota UH-72A helicopter did multiple passes over our property at a very low altitude while filming. They flew so low, we could see their cameras and we could see the pilot looking at us. It terrified us and our animals.

We used an online flight tracking tool to generate the following images (see attachments), because this helicopter came by our property in the same manner in November of last year.

In November, a similar unmarked Lakota UH-72A with cameras, flew around two areas (that were churches), including our property multiple times. I'm wondering if this is what Mr. Trump was speaking about, the Communist left-wingers (our federal government), spying on conservative-minded Americans. I recently watched a presentation of a man stating that there has been 40,000 military flights surveying the domestic US.

These incidences were terrifying and I thought we were being attacked initially.

My husband called the Sequatchie County sheriff's office, and spoke to Deputy Kraft. He explained to Deputy Kraft that a friend who is a volunteer firefighter up here informed us that the Sheriff's office borrows a helicopter from the Tennessee State Patrol during certain times of the year, to look for marijuana, but Deputy Kraft said that it wasn't the Sheriff's office and he didn't have any knowledge on this craft in the area.

It's my understanding of the law, that the federal government has to apprise the Sheriff when they are operating in a county, to which, Deputy Kraft said they did not inform them and he instructed my husband to call the FAA to get more information.

From this map that I am attaching, you can see that this helicopter (just like the one before), is from Nashville. It's hard to believe that a military helicopter (without any markings at all) would travel all the way down here to look at the town of Lone Oak, **flying right above the treeline (and dipping below it)**, not once, but twice in great detail, filming the private properties in this unincorporated township with hardly any kind of crime.

Notice to agent[s] is notice to principal. Notice to principal is notice to agent[s]

We are not clear on where the presumed authority of filming Americans originates from. I cannot remember a time in America when there was so much OBSERVATION of its own citizens, and a helicopter, owned by the US Military, circling around a quiet rural community, without any knowledge of the Sheriff's department seems like a step backwards in the relationship with the government and its people.

There are no reasons to take our gods given rights. **None of our rights are up for discussion.**

My father died this past year as a retired military Colonel in the 173rd Airborne (and Bronze Star recipient from Vietnam), and I went to West Point. My husband's father was a Senior Master Sergeant in the Air force. We both come from military families, through all of our generations. We have never seen this type of surveillance before, even while living right by those very same helicopters.

We need the FAA to speak on the reasons and authority of the surveillance of its own citizens.
We want to know the reasons why the army is allowed to conduct domestic surveillance flights.

How is the FAA looking out for the Constitutional rights of Americans given the fact that they are the authority monitoring the flight paths and the airwaves?

This action is unlawful and we want the FAA to do their job by telling the military this is unlawful, and in violation of the rights of **We The People.**

We are expecting a legal response from an authorized agent.

Dunlap, Tennessee 37327

Notice to Sheriff 5G & Hidden Technologies in Sequatchie County, TN

This is about a catastrophic health event that comes from the broadcast and amplifying of disease causing radio frequency (microwave radiation).

Right to life equals health.

The health of the community is being attacked. We have tested the blood of 7 other residents in the county. We have a Sequatchie county nurse informing us on the dangerously depleted potassium levels of her patients (which is a causation of microwave radiation, which also profoundly affects heart function). The towers in Dunlap are strategically placed near the school; one is placed on a hill overlooking Ace and Walmart, where many people shop.

We can unequivocally say when we travel into Dunlap that we have repeatable symptoms (irritation, heat building, burning, head pressure, anxiety, unwell feelings, immune system problems, nausea, headaches) that start in your ears, nose and throat area (including the eyes), and that's from limited exposure (i.e. a one hour trip into Dunlap for supplies).

Microscope analysis corroborates with symptoms of radiation exposure. A simple repeatable test on any type of person regardless of health status, can show a rapid cellular morphology when exposed to this type of radiation.

The public is largely uninformed and unaware of newly created hazards that are being introduced to our environment that cannot be detected by most people. It's our duty to ensure public awareness since we have been victims of this technology, and continue to be so. **Although this technology is new to the public, the information regarding the health affects of patented technologies that are equivalent to these devices have hundreds (even thousands) of studies done by both military and third parties showing the highly damaging affects of radio frequency microwave radiation.**

We have reported this crime in Colorado which affects our freedom of travel in Tennessee also, to secure our property, to be secure in our home and to enjoy our liberties.

We are attaching a criminal complaint from Colorado, which is a brief summary of personal injuries and measures that were taken to **preserve our life** and came with a **lot of sacrifice**. We moved rurally in an attempt to escape it, but it is too pervasive.

Furthermore, we have no contract with communication companies as we do not own these devices.

Our rights are being violated. We have no freedom of movement. Right to life equals health.

It is completely unethical to broadcast electrical energy in a radioactive form into an unknowing and noncontracted individual that alters the function of their oxygen and life carrying blood. This alters their performance, reasoning, and health. The information about 2.4GHZ was known by the perpetrators and none of this knowledge was informed to the people and they haven't been given the knowledge to be able to consent to this technology. This is fraud. The government has committed crimes against humanity by this act along with all complicit parities.

We demand a permanent injunction on all radiation producing telecoms. We must have a grand jury indictment to expose motives of the interested parties. It is now your responsibility as sheriff and the grand jury's responsibility, not only to inquire into our allegations, but to now prove that this is absolutely not happening to the people of our community in Sequatchie County.

We stand by our allegations and intend to prove the wrongdoing.

A corporation can be tried as a citizen of the state.

The interested parties in this case are such a monopoly that we have the regulators in the government allowing this to happen and a Common Law grand jury must be the ones that initiate and deliver the verdict.

Affidavit of Truth 5G & Hidden Technologies in Colorado Springs

I was a long time resident of Colorado Springs. I grew up on the Air Force Academy from 1985 to 1996 and lived in the Pikes Peak area until May of 2022. I was a heavy equipment mechanic at the Cripple Creek and Victor Gold Mine until working with my wife, when we started a manufacturing company.

In 2019 my health began to deteriorate. The previous year my wife and I were avid outdoorsmen and could easily mountain bike up to 10,000+ feet on any afternoon from Colorado Springs. My wife ran the 800m at the Olympic Trials and competed professionally before I met her. We both were avid power lifters and my wife was coached at the National Strength and Conditioning Center in Colorado Springs. She had a robust health coaching business prior, and authored a transformative medical nonfiction book on illness and pathologies. She also spoke at medical conferences in the past. **Neither of us are people who go to hospitals for ailments.**

In March of 2020, we both became violently ill at work at our warehouse on 21 Commerce Street. My nose started running nonstop and by the end of the night around midnight, I was experiencing a cytokine storm where fluid was filling up in my lungs. My wife was also very sick; we were both vomiting and experiencing diarrhea with excruciating pains emanating from the sternum. We may have only been saved from our natural protocols.

My wife sprang into action to save me as I was rapidly declining. Many remedies on hand, including an ozone unit, O3 which triggers a cellular hormetic response (which ultimately activates survival mechanisms at a cellular level) was administered to me every 5-10 minutes.

Our illnesses were completely unnatural and nothing that we had ever experienced before. To say that it was the flu, is laughable at best. I was bedridden for weeks. It was a long recovery that never was completely a full one.

I went back to work as best I could. When Governor Polis announced his lock down, our business was located in a warehouse district that we could drive to without getting on the interstate, just by leaving our house on Colorado Avenue (which we currently own) and driving through downtown. Since we were considered an essential business (as we had products in stores nationwide), we continued to work while the streets emptied; however, **we saw crews of contractors putting up communications infrastructure**, dish type apparatuses and electrical boxes.

Notice to agent[s] is notice to principal. Notice to principal is notice to agent[s]

Some of these poles were meant to blend in, however some had oddly shaped cylinders attached. Another oddity that we witness was the media and government's marketing campaign with billboards and bus signs talking about the race to 5G, during a time that people were not only locked down and were not going to work, but also were becoming unwell.

Around the same time, my wife saw a contractor changing out panels on the cell tower that was approximately 800 feet to the north of our office building at 21 Commerce Street, visible from our office window (see attachment, image 1 & 2). Our office at was located between two large cell towers, both being approximately 800-1000 feet away.

It was also around this time that we started experiencing symptoms that would never go away. My nose bleed almost everyday at work. Our skin turned darker red around our cheeks. My wife's eyesight started to deteriorate rapidly, to the extent that she even had trouble just driving home. We had headaches that never went away. She started to experience intense anxiety with her heart. I was experiencing intense anxiety mentally. We both were very fatigued all the time and had severe cognitive issues. The pain in our bodies was just intense all the time. My wife would come home from work everyday early and take a salt bath to try to relieve the pain. We had to start walking in the park slowly as part of our hopeful recovery, just so that we could get our minds right to go back to work.

After seeing the panels change out, my wife started researching microwave radiation. This type of radiation is the 2.4 GHZ signal and is in the microwave spectrum of frequency, which is essentially electricity flying at ultrasonic speeds. Our bodies are the perfect sponge for RF energy, because we are essentially a bag of fluid and once this energy enters it cannot exit, creating cascading biological adverse health events.

She bought a Tri-Field radiation meter that measures 4G and 5G. Her readings at our building were so high that our meter would not register the reading while in certain locations of the building, but all areas of our building were higher than what *The Physicians For Responsible Technology* say is safe. In fact, it was listed as **extreme danger** and to use caution in those areas with that type of exposure (see attachment).

This is catastrophic. Hospitals, schools, industrial parks all have these towers near them, sometimes right inside playgrounds which is egregious.

When measuring radiation there is a base and then a peak (that pulses which is often much higher).

- At 21 Commerce Street, **our warehouse base measurement was at the max of our device reading capabilities at 1.9uW/cm2, with peaks/pulses that would not register.**
- At our home at 1127 W Colorado Ave, had a base measurement of .3uW/cm2-.5uW/cm2

We were being exposed at levels that were of extreme concern; a Building Biologist benchmark.

Once we saw the readings and could start establishing an idea of what might be happening, we bought 1000 dollars of silver clothing to shield our bodies and heads from this assault. Symptoms were definitely reduced, especially that of **cognitive impairment** and **anxiety in the chest area**, but were not a total solution. We wore these outfits even when temperatures were approaching 100 degrees. We fled from Colorado Springs with our business, but it took us a year to move successfully.

Notice to agent[s] is notice to principal. Notice to principal is notice to agent[s]

We had to find a place to relocate ourselves and our business away from this radiation, and this move took three, eighteen wheeler trucks. It was a truly horrible time in our lives.

We moved to rural Tennessee which is closer to my wife's home in South Carolina. We began to reestablish our business, find a new direction with a new health baseline. When we arrived here we started to educate ourselves about what we believe we witnessed in Colorado Springs. We began to take meter readings more seriously and to research the affects on blood by buying a microscope to do blood analysis, **which was our final proof that these frequencies used by the telecoms industry are hurting people.**

The microscope work done on ourselves, and other people living and traveling to work through these RF zones, **tells us a shocking story. Everyone's blood is sick when it's exposed to microwave radiation. It can be proven.** When you are exposed to RF, red blood coagulates; in short, clotting occurs and red blood cells cannot get oxygen. Red blood cells morph into something that looks like a **sun** called a echinocyte. *Corona* means sun in latin and it "radiates." Depending on the exposure times and limits, mitigation consists of avoiding microwave and even then, the blood **takes days** to recover. The technology is too pervasive for people to hide from it now, even rurally.

We set out to eliminate our exposure dramatically, by not leaving our property unless we had too. We don't own cellphones, we hard wired our internet, we don't own a smart TV, or anything that emits radio frequency microwave pulsing, which is also all Bluetooth.

When we first moved here we had to go into town more frequently to Chattanooga or Dunlap, to get materials for our property. At first our recovery was slow and we had so many setbacks, but more recently with longer durations being spent on our property (which is in an RF quiet zone, far enough from the "cell towers" with trees obstructing this technology), **our blood not only returns to normal but we are miraculously feeling better again** from any trips we take into town, which almost always results in symptoms on a milder scale, than we previously had in Colorado Springs. Our blood correlates to this phenomena and is completely undeniable. It also a repeatable experiment with the same results, no matter the individual.

Long term (and perhaps short term) exposure undoubtedly causes a plethora of maladies, since microwave is highly carcinogenic, most commonly turbo cancers, degenerative diseases, and also that of heart problems including clots and all of the symptoms that are now on the rise in the general population, which is in unprecedented! There is overwhelming scientific research on the effects of microwave radiation and it's identical to Covid (and milder affects are like that of flu-like symptoms).

It is completely unethical to broadcast electrical energy in a radioactive form into an unknowing and noncontracted individual that alters the function of their oxygen and life carrying blood. This alters their performance, reasoning, and health. The information about 2.4GHZ was known by the perpetrators and none of this knowledge was informed to the people and they haven't been given the knowledge to be able to consent to this technology. This is fraud. The government has committed crimes against humanity by this act along with all complicit parities.

We allege that this has been a deceptive operation where great care should have been exercised and was not; in fact, the truth was willfully obfuscated from the scientific community and public.

Notice to agent[s] is notice to principal. Notice to principal is notice to agent[s]

There has been actionable negligence on the part of the telecom industry in their duties to their duties to protect the public from technologies without having any proven safety data, because it is actually non-existent.

Our rights to life, liberty, freedom of movement, to be secure in our home and in our travels has been violated.

Without health, there is no future, and that includes our children **who will have no future.** Who can say what the remedy is for something so massive and egregious.

At this point, the only path forward is to impose a permanent injunction on all radiation producing telecoms. We must have a grand jury indictment to expose motives of the interested parties. It is now your responsibility as sheriff and the grand jury's responsibility, not only to inquire into our allegations, but to now prove that this is absolutely not happening to the people of your community.

We stand by our allegations and intend to prove the wrongdoing.

A corporation can be tried as a citizen of the state.

The interested parties in this case are such a monopoly that we have the regulators in the government allowing this to happen and a grand jury must be the ones that initiate and deliver the verdict.

COMPLAINT OF TRESPASSING & ASSAULT

Statement from Perry-Louis: Fields:

On Monday, 11/5/2024 around midday, I saw someone pull up in a white vehicle outside my gate. My mom went to answer it and I went down to talk to a young lady. Her description was: khaki pants, a mushroom necklace, blue hair and about 5'6" in height. Her truck said 'FiCom' and she said she was from EPB to put on a new electrical meter. I told her to wait and waived to her to go outside, and that I would get my husband to speak to her.

Statement from Benjamin-Dylan: Fowler:

My wife came into the garage and informed me that a utility worker was outside wanting to put an electrical meter on our building. After greeting the young lady, she told me that this was a new meter because our older one quit working. I informed her that I had concerns about possible changes in this radio transmitting module and that I would need to research it. I informed her that we weren't going to be doing this today and I asked her if I could take a picture of it and research it. She went to her truck and willingly brought a meter. She allowed me to hold it and take a picture and as soon as I handed it back to her, she immediately said, "I will be putting this on today." I informed her of my rights to research this meter and schedule for install and that she had no permission to be on the property. I repeatedly advised her that she didn't have permission to be on the property. At one point, I instructed her to call law enforcement. She maintained that she was going to put this on. Her emphasis was that she could not be prevented from doing her job.

She refused to acknowledge anything we were saying and began to walk towards the fence line, which was approximately 40 feet to the north. The entire time we stayed in front of her while continually communicating to her that she has no permission.

Statement from Perry-Louis: Fields:

This young lady started trampling my garden. I got in front of her by about 2 meters. When I saw that she was going to run through me/over me, I stayed put and she charged into me and made physical contact. I put my hands up when she didn't back off and she yelled out something about, "don't put your hands on me."

page 1 of 3

My husband was directly behind me and told me to go call the sheriff, and I did. As I was calling the sheriff, my mother was able to see this young lady attempt something similar with my husband, who kept backing up as to not make contact with her.

Statement from Benjamin-Dylan: Fowler:

She continued to try to reach her destination, which at this point was 60-70 feet further to the west. I stayed in front of her, continually telling her that she had no permission to be here and that the sheriff's department was being called. By this time, my mother in law had been observing everything and she began to tell this young lady she needed to leave the property. About this time, the young lady finally conceded and started calling us "crazy and "psychos" as she was walking towards the gate. I maintained a distance from her and allowed my 78 year old mother in law to escort her out the final 40 feet. Upon exiting the gate, with my mother in law standing inside the gate, this young lady did a "donkey kick" to the gate and my mother in law was able to get out of the way without physical harm.

Once she was back in her van, she stayed parked, speaking to someone on the phone for an estimated 5 minutes.

We want to press charges of criminal trespassing and criminal assault and battery.

Criminal Trespassing: is entering or remaining upon or in any land, structure, vehicle, aircraft or watercraft by one who knows he is not authorized or privileged to do so, and also he enters or remains therein in defiance of an order not to enter or to leave such premises or property personally communicated to him by the owner thereof or other authorized person; or such premises or property are posted in a manner reasonably likely to come to the attention of intruders, or are fenced otherwise enclosed (Black's Law 5th Edition).

Assault & Battery: any unlawful touching of another without justification or excuse (Black's Law 5th Edition).

Assault: any willful attempt or threat to inflict injury upon the person of another, when coupled with an apparent present ability so to do and any intentional display of force such would give the victim reason to fear or expect immediate bodily harm, constitutes an assault (Black's Law 5th Edition).

Battery: the consummation of an unlawful assault (Black's Law 5th Edition).

NOTICE OF REQUIREMENT FOR LAWFUL CONDUCT BY SHERIFFS, NOTICE OF APPARENT CRIMINAL MISCONDUCT BY (EPB)

It has come to my attention that in a few localities around the USA, Sheriffs have made the mistake of assisting local power companies in enforcing installations of a particular style of electric meter on private property. That is enforcement of corporate policy, a civil matter outside police and Sheriff jurisdiction, and that enforcement is unlawful. In particular, such unauthorized and unlawful enforcement is not permitted on my property.

Electric company easements are private contracts and are not subject to law enforcement or criminal jurisdictions. We are glad to address any questions of public safety by your casual inquiry. There are no emergencies in these matters, and no enforcement actions are necessary in the selection of the style of electric meter operating on our property. We have not, and will not make any threat or take any unlawful action against any power company employee, yet we expect Sheriff support for any act of self defense that may we may find necessary against unlawful surveillance, radiation and fire hazard by meters on our property. We are not creating any hazard by objecting to an unsafe and unlawful digital meter being installed on our property. Any electric metering equipment permitted by us to be installed on our property will be standard, approved, calibrated and accurate and free of any hazard, risk or danger to ourselves and to the public and we expect law enforcement to support that objective. Law enforcement has no authority, jurisdiction or invitation to intervene against us in defense of our health, safety, privacy rights unless we request assistance against a violation by the power company.

If Sheriffs appear at my property for the purpose of any enforcement on behalf of EPB, herein referred to as UTILITY COMPANY, those law enforcement officers and personnel will be and are required to show a court order specifying and authorizing their enforcement actions and entry to our property. In lieu of that court order we must be presented with a verified (signed and sworn by an identified complaining party) complaint of intentional criminal misconduct and harm by our alleged misconduct and we must be given opportunity to present any evidence refuting those allegations under administrative remedy. Any County Sheriffs personnel assisting UTILITY COMPANY (a private corporation) in enforcement of their civil and corporate policies and/or failing to show jurisdiction and proper legal authority for enforcement may be charged with criminal trespass, false use of force under color of authority, accessory to vandalism, burglary, breaking and entering and any number of other violations, crimes and/or offenses against people and property.

We are in communication with UTILITY COMPANY on these matters, and no Sheriff intervention is currently called for, even if requested by UTILITY COMPANY, unless by sworn complaint of criminal violation also causing harm to UTILITY COMPANY and such complaint must be supported by a court order (warrant). We welcome your casual inquiry as to any complaints and will be happy to supply legal documentation authorizing

NOTICE OF REQUIREMENT FOR LAWFUL CONDUCT BY SHERIFFS
NOTICE OF APPARENT CRIMINAL MISCONDUCT BY UTILITY COMPANY

Page 1 of 2

our actions with regard to electric metering on our property. That documentation will show that intervention by police is not necessary, appropriate or lawful unless it is against UTILITY COMPANY misconduct for installation or threat of installation of an unsafe and unlawful device on private property without consent.

APPARENT CRIMINAL MISCONDUCT BY UTILITY COMPANY

We have found UTILITY COMPANY to be in criminal misconduct by installing digital electric meters (sometimes called "Smart Meters") known and confessed to be "monitoring devices" (surveillance devices) and known to be in violation of Federal Title 18, Wiretapping and the 4th Amendment of the United States Constitution protections of private property rights and against unwarranted search and security in the home. We hereby request investigation and enforcement against those utility company violations. Also, the digital meters cause and emit electromagnetic radiation in amounts known to cause cancer, neurological illness and injury, birth defects, immune system injuries and a host of short term and long term medical symptoms in varying degrees depending on circumstances in violation of 18 U.S.C. § 113 : US Code - Section 113, ASSAULT. UTILITY COMPANY is aware of these endangerments and, with intent, has committed deliberate and reckless endangerment of the public in the installation of those meters. We intend, if UTILITY COMPANY attempts this unsafe and unlawful meter installation on our property, to file criminal complaints immediately upon that attempt. We will anticipate, if UTILITY COMPANY does not respond to our warnings of trespass, that Police and/or Sheriff response will be available to remove trespassing UTILITY COMPANY personnel and/or contractors and take them into custody on our formal complaints of trespass if they make or threaten to make any attempt to install an unlawful and unsafe meter on our property as described above. UTILITY COMPANY has been or will be served with notice of their violations and formal demand to cease and desist trespass with unlawful devices and equipment. If UTILITY COMPANY fails to cease and desist, it and its officers and employees will be intentionally committing and continuing these violations, and therefore defensive and protective measures must and will be lawfully and rightfully taken by our area's residents for which we expect support of law enforcement. **All acts by occupants against digital electric meters and their installation are justified as acts of self defense.** UTILITY COMPANY has, by its violations, lost right of easement to enter properties without written approval and supervision by property owners, and has lost right of policy and contract by criminal misconduct, and we have noticed or will notice them of this. All rights are thereby wholly reverted to, and held by, the property owners and occupants of metered structures where unlawful and unsafe meter installations are installed or threatened to be installed.

Unless the County Sheriff's Office respond to this notice with specific dispute and/or rebuttal by an authorized and identified official with reference to law and fact to support his/her assertions within 30 days, the Police Department and County Sheriff will thereby indicate that all officers and Sheriff's Deputies understand the terms and conditions herein and agree with them. Any points herein not rebutted with fact and law timely in that way will be binding upon the Sheriff's Office regardless of the status of the other points.

Thank you for assuring that the terms and conditions herein are generally understood and followed by all officers under the authority and/or direction of the County Sheriff's Office.

Notice to principal is notice to agent and notice to agent is notice to principal.
